

# "Black Lives Matter" Lyrics

Dax

I can't breathe  
I can't breathe  
ay ya  
I can't breathe  
This a (r)evolution (i)n (o)ur (t)ime everybody's  
fighting  
change coming, YES!  
that's why it's an acronym for riot  
Everybody has a voice don't you dare stay silent  
if you say nothing you are an accessory to  
violence  
let these words dry the tears of my people who  
are crying we can bring back hope but not people  
that are dying  
This is what happens when the people you've  
oppressed ask for change in a country that they  
built but you ignored and deny it  
This for Sandra Bland, George Floyd, and every  
single family police brutality has intervened in  
and destroyed  
couple bad cop couple can't define all you other  
boys so every good COP needs to stand up and  
make noise  
Black, white, asain doesn't matter cause we can't  
avoid so let's all come together join hands and  
yes get annoyed at people who believe racism  
makes sense in a country built off minority slave  
work employed  
see nobodies born racist man it's something you  
learn  
Deep rooted in your brain from the day of your  
birth  
I think it's time that we repair  
All of the bridges we've burned  
And let love out of our hearts onto cheeks we  
turn

Spread love, show love, lets get rid of this curse,  
Don't wait for anyone to act man you go first  
400 years wasted let's get rid of this hurt cause  
that's the only way we'll ever see peace on earth  
I can't breathe  
I can't breathe  
I, I  
I can't breathe  
Change is what we need  
Cut me open, cut you open Red's the color every  
single human beings bleeds,  
Let's come together cops citizens and in between  
and rally for the rights of everybody in humanity  
Black, blue, white, green,  
Playing for the seam the team  
I'm not MLK but boy that doesn't mean I Can't  
dream  
Black lives matter shouldn't anger you or make  
you scream all lives matter cause we aren't  
treated equally  
Remember when we were kids and didn't see no  
color and when we played in kindergarten and I  
called you my brother  
Then we grew up and they taught us we should  
hate on each other even though  
We one in the same and we all came from our  
mothers  
I hope y'all understand  
Hate is not a trait it was learned man  
Equality is the quality we need inside this earth  
man  
Give and receive it's the karma that you earn  
man  
I can't breathe
